Notes

-Video auto-plays, audio can be turned on or off

-Logo changes to square version while scrolling down on tablet resolution or above (separate navbar, instead of fixed)

-All images should be SVG format

-All links lead to first anchor point

-JavaScript features— scrollspy, icons that reveal feature text when clicked.

Logotype

1642 x 300

Illustration size

1919x1920

General project timeline

1. Research:

SVG image integration via Bootstrap

Embedding video that auto-plays, with audio turned off by default

etc.

Determine what can be done within

Bootstrap and what will need to be added on

2. Install single-page Bootstrap template

3. Experiment with the features of

the template, implement accordingly
